Subject: Re: Proposal to Governor for Working Group

Hi Jeremy,

Thank you for reaching out on the ACP discussion. Would the 31st at 1pm work for you?

On ACP affiliations, I am just a citizen and am equally active in all of these organizations. 350 Triangle, NC WARN, APPPL and NCCSC have all been working together (along with several other organizations) actively opposing the ACP.

APPPL has no identified primary contact. It is an organization of citizens opposing the ACP from across the state. It was formed about a year ago by several other environmental organizations that came together with a common goal of stopping the ACP. There are several hundred people working with this group, and a few lead organizers.

There are also weekly calls with several state (NC and VA) and national organizations working together toward a common goal of stopping the ACP. I can perhaps help in identifying contacts for many of these organizations. If this would be helpful please let me know and I can gather a list for you.

I affiliate as a citizen and a North Carolina business owner (The Farthest Pixel). There is no more pressing issue we face than climate change. I left my full time job of ten years with NC State to help solve this crisis. Right now I think the way I can be most helpful is through the working group I proposed to help municipalities in our state move to 100% renewables. I'm very good at big picture - it is what I do and what I teach - and I believe this is the best step forward for our state. I also believe I must do all I can to insure we don't continue to invest in infrastructure for a fossil fuel future. We just can't do that anymore.

It was a great forum yesterday with so many wonderful opportunities and solutions! And right here in North Carolina! We need to tap these resources and put them together to help plan a fossil free future for North Carolina!

Thanks again for meeting, Jeremy!

Amanda,

Thank you again for talking with me last week about supporting local government commitments to achieving 100% RE goals.

We ran out of time to discuss the ACP, and so I wanted to reach out about scheduling a time to discuss that topic with you and Marvin. Do you availability to come this way before 2pm on the 31st? I also have availability mid-day on the 30th and 1st if those windows work better for you.

In the meantime, of the organizations you are affiliated with, is there one you primarily work with regarding the ACP? I'm trying to keep straight the primary contacts for the various organizations involved with the ACP.

Subject: Re: Proposal to Governor for Working Group

Jeremy, thank you for taking time to meet today. I know how busy you must be and truly appreciate your time.

I'm attaching the Word version of my proposal so that you might more easily make edits if you feel crafting an Executive Order for this Working Group would be something you'd like to put before the Governor. I have not shared it with him. Others that have seen this proposal are individuals named in the Working Group Members recommendations.

I've also attached Bill Power's report, North Carolina Clean Path 2025. I understand this was to come out in June originally but he wanted to have this peer reviewed by several people in order to give it strong credibility. This is one plan I feel this Working Group should review and make recommendations on for the Governor.

Please let me know your thoughts and any next steps. In the meantime, I'll reach out to Mary Penny Kelley for her ideas as well.

Again, many thanks and enjoy your weekend!

Best,

Amanda
